

COP290 2-player Maze Game

Reliving

A game about strategy, speed and memories

Kartik Sharma, 2020CS10351
Gurarmaan S. Panjeta, 2020CS50426

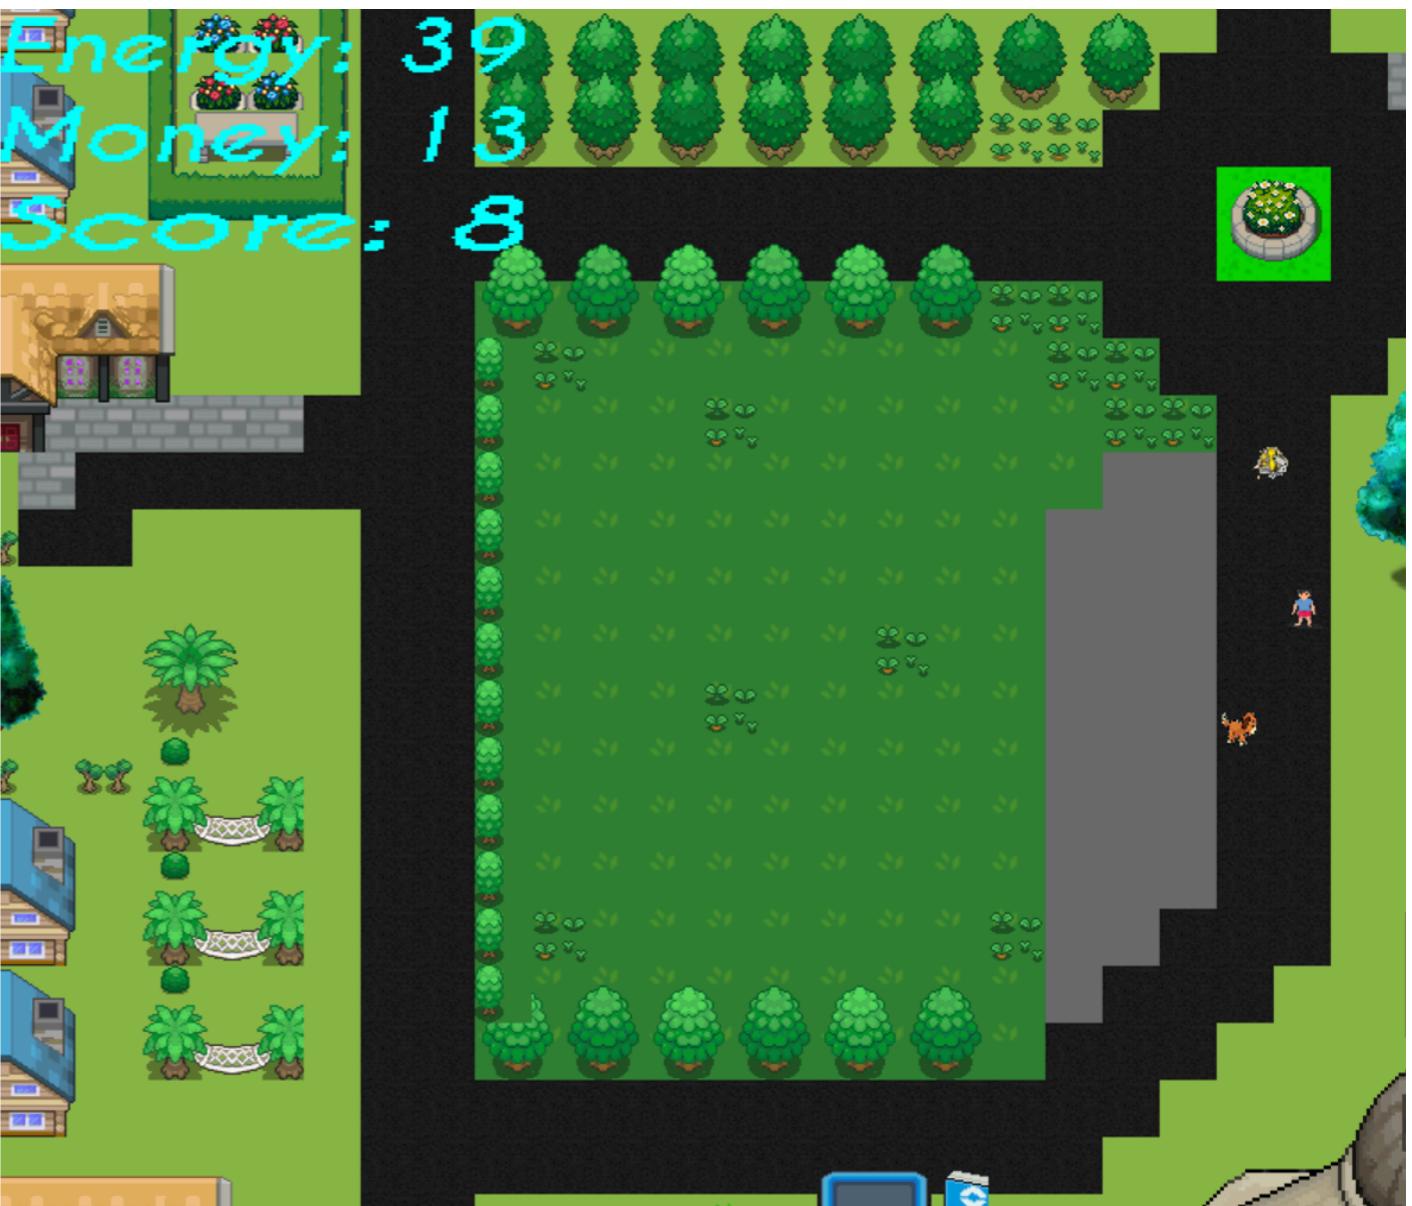

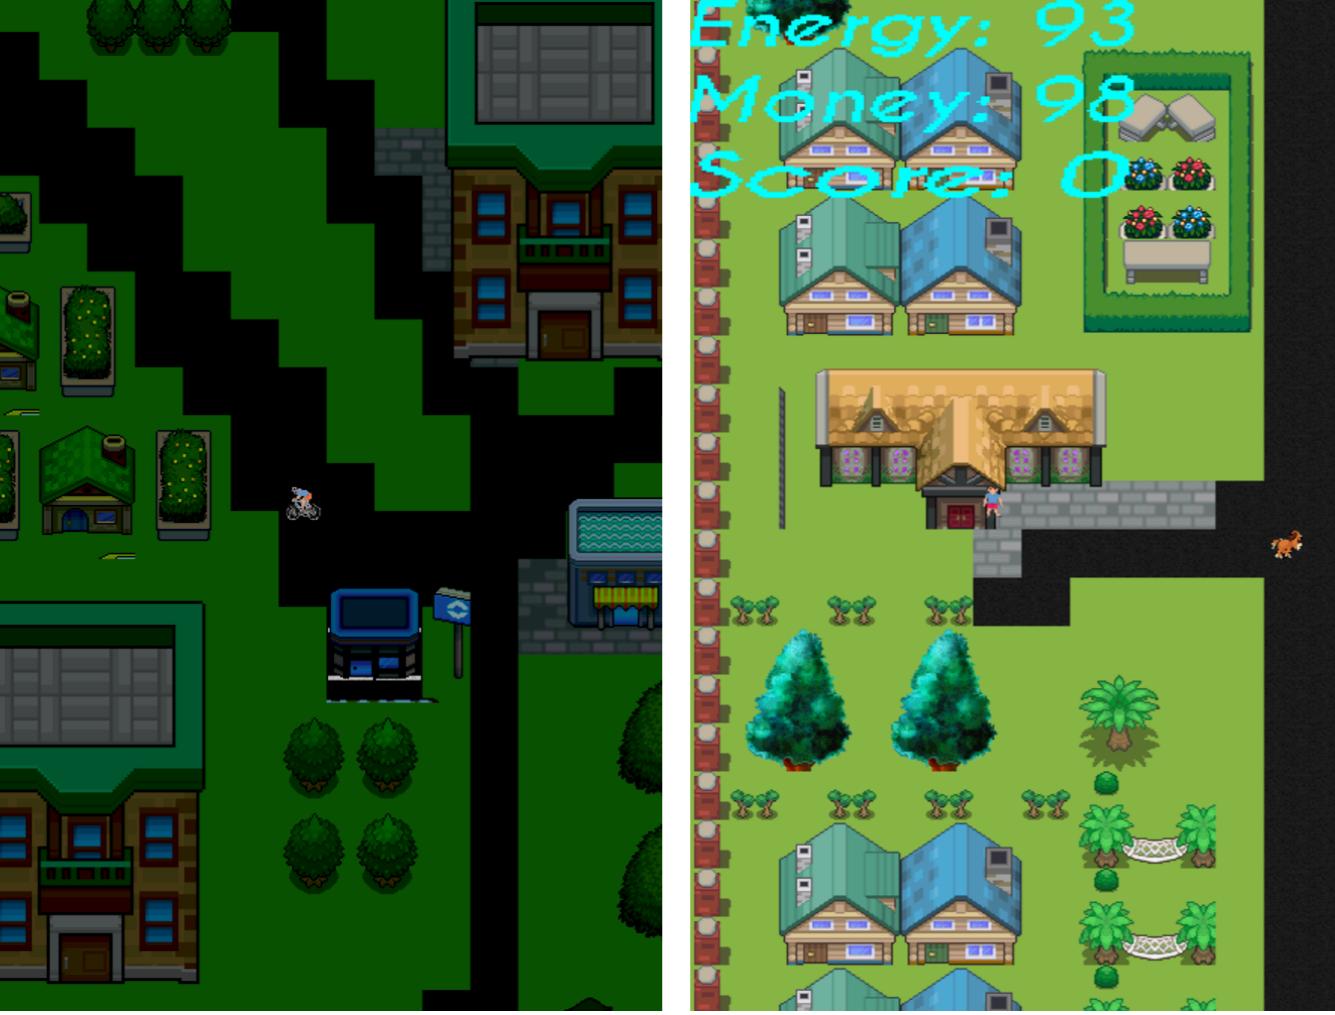

The Objective

Be the first to overflow your progress bar by collecting goodies, strategising your gameplay with yulu-rides, pit-stops, recovery sessions and a lot of fun!

So, whats stopping you?

With a ticking clock, a strong opponent, vicious dogs, angry bees and energy drain with movement, battle it out to emerge victorious

The finer details

- 1) You lose the game if your energy reduces to zero
- 2) Money replenishes with time (thanks to your parents timely gift parcels!) , use it at food joints for energy , or on a yulu for extra speed
- 3) Food at Hostel canteen costs lesser than the commercial joint :) Remember, though, only the night messes operate at night!
- 4) Dog bites are painful! A major hit on the energy, and a respawn after a 5 second recovery from the hospital.
- 5) Bee stings hurt less, a 5 second recovery period and a minor hit on the energy bar.
- 6) Dogs bark and bees buzz in proximity, use the warning and stay away.
- 7) Yulu gets you fast, but drains wealth faster. As they say,speed thrills,but kills makes you penniless.
- 8) Use the Zoom out command, for the bigger picture (pun intended).
